Volunteer Spotlight

Expert knowledge of computer technology has allowed **Lloyd Constant** to pursue what he loves to do: TEACHING! Lloyd cherishes the interaction with people which has led him to 22 years of evening division instruction at Tulane University. Lloyd retired in 2005 from Exxon, but began his computer tech journey when Tenneco was still in existence. After serving in the chemistry lab at the refinery in Chalmette, Lloyd began work with computers when they were first introduced. He was so proficient in its application and in communication, he was chosen to teach a behavior modification and safety course for Exxon. Lloyd is thrilled to teach students here and at Tulane how to use computers to solve business problems. Lloyd teaches 2 Computer Intermediate/Internet courses and one Internet/e-mail

(Advanced) at Metairie's campus. Jane Dassey "lured" him into participating as an instructor when he accompanied his wife, Mary Erin, for registration 3 years ago. Student Betty Armstrong readily admits that Lloyd is patient, flexible and so knowledgeable. Lloyd boasts that he has never met a mean person at People Program; he is delighted at how everyone gets along! Thanks, Lloyd, for your great gift of human kindness!

The Whole World Smiles With You!

She was in the bathroom, putting on her make-up, under the watchful eyes of her young granddaughter, as she'd done many times before. After she applied her lipstick and started to leave, the little one said, "But Grandma, you forgot to kiss the toilet paper good-bye!" I will probably never put lipstick on again without thinking about kissing the toilet paper goodbye...

A grandfather was delivering his grandchildren to their home one day when a fire truck zoomed past. Sitting in the front seat of the fire truck was a Dalmatian dog. The

children started
discussing the dog's
duties.

"They use him to
keep crowds back,"
said one child.

"No," said another.
"He's just for good
luck." A third child
brought the argument
to a close. "They
use the dogs," she
said firmly, "to
find the fire
hydrants."
